LEAD-FREE MULTI-TURN DUAL OUTLET CHROME SUPPLY STOPS

T-587NL and T-587PNL

Lead-free design is suitable for all no-lead potable water installations, in full compliance of all lead-free plumbing laws.

Compact,lead-free brass body is machined from a single piece of barstock, providing the highest level of durability and strength.

Thermoplastic stems resist scale and debris build-up better than metallic stems, even in hard water conditions.

Each stop is individually packaged, preventing connection component loss and protecting the stop from contamination.

Available in seven configurations, including compression, PEX and FNPT inlet connections.

• Third-party tested and certified in compliance with U.S. Federal Public Law 111-380 (National lead-free plumbing law).

- •Certified to ANSI / NSF Standard 61-G.
- End connections conform to: ANSI / ASME B1.20.1 (FNPT) ASTM F1807 (PEX barb)
- Manufactured in an ISO accredited facility
